

FCK 8000 L

Lockstitch bottom hemming machine

FCK 8000 C

Chainstitch bottom hemming machine

Standard equipment:

- Hemming bottom lags for denim and/or Chino pants
- Sewing heads with Hohsing direct drive servo motors
- Upturn or downturn hemming folder for lockstitch version
- Downturn hemming folder for chainstitch version
- Touchscreen for easy setting of the machine parameters
- Condense stitch start and/or end programmable
- Stitchlength programmable
- Automatic end-stitching over seam counting
- The unit automatically detect the end, will open the folder, then stop at the required end position, without needed attention from the operator
- The presser foot will lift without operator action, and the trouser will be blown out of the machine
- A benefit of 20% more production efficiency will be achieved by the automatic end-sewing software and hardware
- Height adjustable stand to maximise operator's comfort
- Hohsing direct drive motors
- Genuine SMC for all standard pneumatic parts

Sewing Unit Type:

FCK 8000

Sewing Head:

FCK Sewing Head

Needles:

8000 L : DV57 (#18)
8000 C: DPx17 (#18)

Max Sewing Speed:

3500-4000 Rpm

Stitch lenght:

1.0 - 9.0mm

Hemming widht:

8 to 30mm (more wide on request)

Puller drive:

Electronic precision drive

Productivity:

149-200 trousers
per hour

Voltage:

220V - 240V Mono
50/60 Hz

Power:

0.5Kw

Air Pressure/Consumption:

5.5Bar / 2,5L/min

Dimensions mm LxWxH:

970x550x1100

Weight (NW):

119Kg

Dimensions mm Packed LxWxH:

1020x720x1300

Weight (GW):

150Kg
