

IIGM Unbleached Paper

General Purpose Paper for Manual Cutting Rooms and Wrapping Applications

Product Overview

IIGM Unbleached Paper is a versatile and durable paper solution designed for use in garment manual cutting rooms and general-purpose wrapping applications. Manufactured with a smooth surface finish and reliable strength, it ensures easy handling and consistent performance in everyday cutting and packaging operations.

This paper is an economical choice for apparel manufacturers and industrial units looking to maintain productivity and cost efficiency in their cutting rooms. Its robust structure makes it suitable for fabric protection, interleaving, wrapping, and other utility purposes within production environments.

Key Features & Benefits

- Smooth and strong unbleached paper for manual cutting operations
- Ideal for general-purpose wrapping and fabric protection
- Economical and cost-effective consumable for daily production needs
- Supports efficient and organized cutting room workflows
- Suitable for apparel and industrial applications
