

Steam Reheater 2218

When paired with a mobile VEIT steam generator, the 2218 delivers an excellent, condensate-free steam supply for the VEIT 2157 Hand Finisher. The fully heated cycle ensures consistently dry, high-quality steam for premium finishing results.

Key Benefits

- Designed to work with mobile VEIT steam generators.
- Provides optimal steam supply for the VEIT 2157 Hand Finisher.
- Fully heated path creates condensate-free, dry steam.
- Improves finishing quality by preventing water spots or streaks.
- Compact unit integrates easily into existing setups.

Ideal wherever high-quality, dry steam is critical for consistent handheld finishing.
