

Electronically Regulated Dry Iron for the Highest Demands

Specially coated aluminium soleplate offers excellent glide and rounded edges that prevent shifting of delicate lining fabrics—delivering a consistently wrinkle-free finish.

Advantages

- Exact temperature regulation with a max tolerance of $\pm 2^{\circ}\text{C}$.
- High-class, hardened & tempered ironing sole for long life.
- Ergonomically shaped, skin-friendly VEIT handle for fatigue-free work.
- Integrated steam and heat protection for safe, comfortable ironing.
- Powerful heating for short heat-up and fast reaction times.

Key Specifications

Weight	≈ 1,300 g
Voltage	230 V
Power	1,250 W
Frequency	50–60 Hz
Ironing surface	210 × 105 mm (8.3 × 4.1 in)
Soleplate	Specially coated aluminium
Application	Optimized for lining fabrics; rounded edges avoid displacement

Control	Electronic temperature regulation
