

Varioset CR2 S+B – Professional Ironing Table

Overview

The Varioset CR2 S+B ironing table is designed for studios, tailor shops, refinishers and textile care operations requiring professional finishing performance. With superior suction and blowing, ergonomic height adjustment and low-noise operation, it ensures excellent ironing results across all garment types.

Key Advantages

- **Low noise level:** Advanced flap box construction ensures significantly reduced operating noise.
- **No surface heating required:** Ready for use without heated surface, reducing energy consumption.
- **Gas spring height adjustment:** Operator can easily set the table height for ergonomic working comfort.
- **Strong suction & blowing:** Independently adjustable air power for fast drying and shorter cycle times.
- **Electronic control unit:** Integrated display for easy and precise operation settings.
- **Optional egg-shaped buck:** Ideal for pressing larger garment sections such as jacket panels, blouses, skirts and dresses, improving versatility and finishing quality.

Applications

Perfect for garment production units, fashion studios and textile care facilities that require reliable, comfortable and high-performance ironing solutions for diverse garment types.
